# Ready-to-connect compact power packs and components

**AUER Hydraulics GmbH offers a wide portfolio in the field of hydraulic power packs:**

- Production of hydraulic power packs in 12/24V DC, as well as 230/400V AC
- Application in mobile and industrial hydraulic systems
- Construction of 3D models (SOLIDWORKS)
- electrical cabinet production
- CNC manufacturing
- Creation of hydraulic and electrical schematics.

Etc...

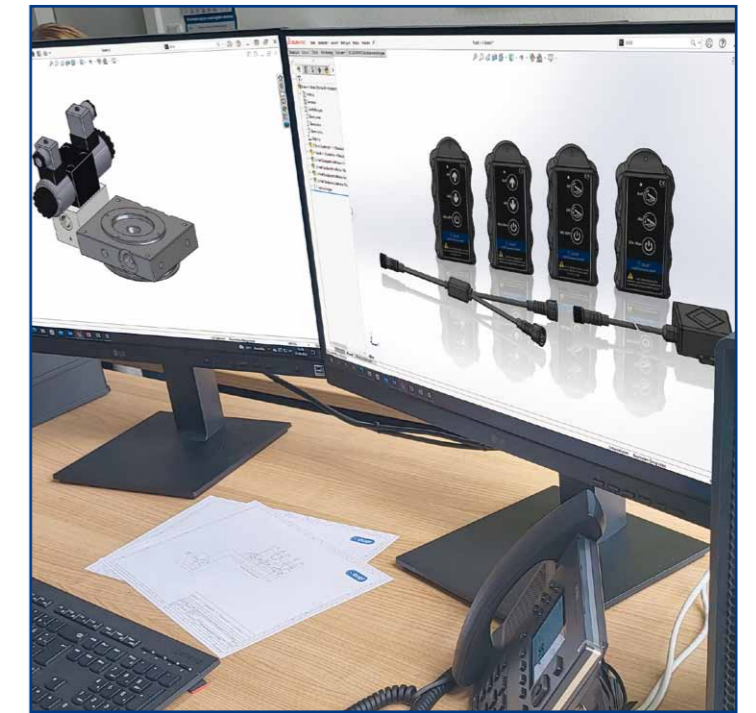

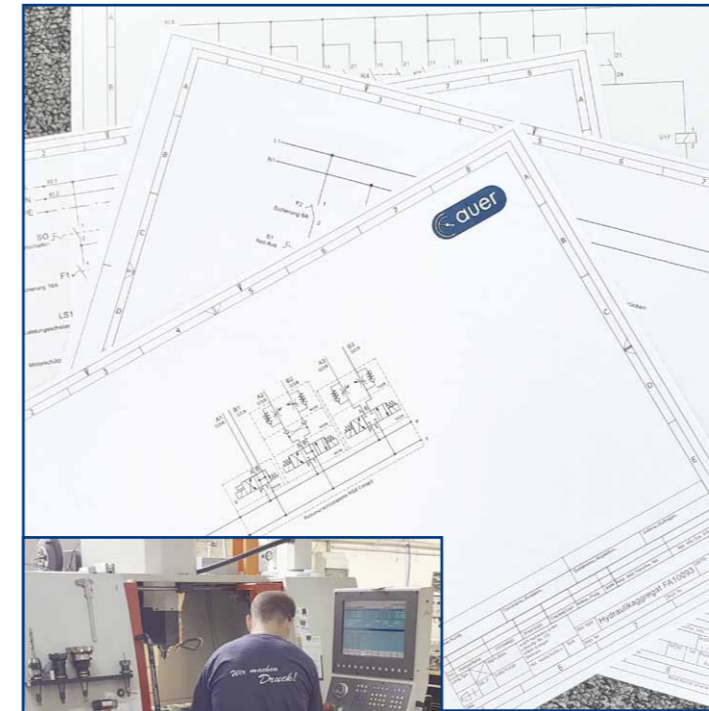

**Our power units are characterized by their excellent quality as shown below:**

- Small installation space
- Short term availability
- High performance
- High efficiency
- Reliability
- Durability
- Sturdiness

All components meet the highest requirements.

The compact and simple design guarantees quick and easy assembly.

**Suitable for use on:**

- Loading ramps
  - Forklifts
  - Dock levellers
  - Hydraulic Work Platforms
  - Scissor lift tables
  - Machine tools
  - Car trailer / tipper
  - Tube bending machines
- Etc...
